HAS-Vent Limited – Covid 19 Announcement – Business as normal where practically possible.

During this period of uncertainty and concern we write to advise that we are taking pro-active measures to ensure that we retain business continuity and any potential disruption is minimised via effective planning.

We have received assurances from our strategic suppliers that there will be no disruption to the supply of goods. In addition, we have put planning contingencies into our manufacturing department to ensure that we can continue to manufacture products in line with customer demand.

The wellbeing of our employees is of paramount importance and at the forefront of our thinking in order to mitigate the spread of this virus. We have taken the decision to restrict all unnecessary business travel and therefore all face to face visits and meetings have been cancelled. A number of employees have the ability to work from home if and when required.

We would kindly request that contact with our employees is kept to a minimum for all customer collections.

The business will continue to follow public health recommendations and will react accordingly to new developments during these fast-changing times.

We will continue to update you of any significant changes, and we thank you for your support during these challenging times.
